

# Workshop For Students

## Overview of the Workshop

As the whole world looks upon India as the potential world power with one third of its population speculated to join the future workforce, nurturing our youth is the biggest challenge to educationists and various educational institutions.

In addition, recent changes in the education policy reiterate the need for emphasis on comprehension, analysis and application of acquired knowledge. With this futuristic thinking, we offer to train your students in understanding their needs, plan for their goals and work effectively towards realizing their dreams, and also learn to have independent thinking irrespective of their stream and career choice.

In this regard KIDICIOUS offers a set of workshops that will help students to develop various skills, self-awareness using various interactive activities.

### Grades from NURSERY - IV

- Teaching about Good Touch and Bad Touch
- Handling Bully

- Stress Management
- Handling Relationships
- Time management & Goal settings

# Workshop For Teachers

## Overview of the Workshop

Students are just one link to the process of knowledge acquisition; a major link in this system are the teachers. Despite having educated and trained professionals, time-to-time enhancements and growth is essential. Also, given the fact that the workload is demanding and stressful, stress relief through effective time management and relaxation is important.

Not just training to teach better, also to train teachers to incorporate the learning in their everyday teaching procedures, we offer a few modules for teachers, special educators and counselors.

- Teaching with the help of Multiple Intelligence Theory
- Screening of Dyslexia among students
- Teaching a Dyslexic Child
- Classroom management
- ADHD and its management (The big volt wire program)
- Establishing a Resource Room for kids
- Phonological Awareness (Making your own kit to teach “reading” among students)

**Workshop Duration:** Can be talor-made to the availability of time and specific requirements of your esteemed institution.

The details, content and methodology of the workshop will be given separately as per the topics of interest.
